

FUB-690

Utilizing the latest innovations in the lead acid technology, Forza® introduces the versatile, rechargeable and fully portable FUB-690 battery.

Its unique sealed construction provides maintenance-free operation, with the advantage of being mounted in any orientation without capacity loss or fear of electrolyte leakage. This advanced AGM battery with thick plates and high density active material provides an extra margin of performance and service life in float and cyclic power applications. This rugged battery is ideal for a wide range of uses, such as UPS power supplies, emergency lighting, power tools, security systems and much more!

Highlights

- Slim design for UPS applications
- Multipurpose: Float or Cyclic use
- Long service life: 5 years in float standby applications, and over 260 discharge/charge cycles
- Sealed and maintenance free operation
- Rugged, non-spillable construction design
- Safety valve installation for explosion proof
- High quality and high reliability
- Low self-discharge characteristic
- Flexibility of design for multiple install positions
- Exceptional deep discharge recovery performance
- 6V 9.0Ah
- One year full warranty

Applications

- Alarm systems
- Computer backup
- UPS-Uninterruptible power supplies
- Emergency lighting
- Fire and security systems
- Power tools
- Portable video devices
- Outdoor and camping equipment
- Golf cars
- Marine equipment
- Medical-mobility equipment
- Robotics
- Toys, and many more uses

MPN	FUB-690
Output	
Output voltage	6V
Amp/hour	9.0Ah
Type	Sealed-lead-acid battery
Charge	
Cycle use voltage	7.30-7.50VDC
Float charging voltage	6.80-6.90VDC
Maximum charging current	2.7A
Physical characteristics	
Color	Black
Weight	2.8lb
Dimensions	5.9x3.7x1.37in
