

FVP-1202B-A

The newly introduced Forza's FVP 1202B-A Zion features a unique innovation in the industry: 350° rotating outlets to easily accommodate and position all your components without obstructing other available receptacles.

The handy on/off switch also helps reduce standby power consumption. Most importantly, the FVP Voltage Protector will automatically guard your equipment against brownouts or transient spikes induced by lighting or power line failure.

The first 3-in -1 voltage protector in the market, the Zion will automatically guard your equipment against potentially damaging power fluctuations and other irregularities in the electrical supply.

- ✓  Reliable protection
