

FVR-2202

Forza's Automatic Voltage Regulator --also known as line conditioner-- is the reliable solution that provides the right protection for your equipment.

In addition to its excellent stabilization capability, the FVR automatically corrects transient voltage fluctuations and filters out electrical noise to provide "clean", regulated AC power. Forza's FVR- 2202 is the perfect choice to enhance performance and safeguard your valuable components.

Highlights

- Automatic Voltage Regulator (AVR)
- Instantaneously switches to correct output voltage by closely monitoring the input voltage
- Power protection for all your sensitive electronics and
- Telephone, fax and modem protection peripherals in a space saving design
- Built-in advanced thermofuse protection -- it disconnects power when input voltage is dangerously high.
- Can be mounted on the wall

Computer accessories & telephones

Multifunction printers & copiers

Home appliances

2200VA

PROTECTION LEVEL **4**

- + Breaker
- + Surge Protector
- + Voltage Protector
- + Voltage Regulator

MPN	FVR-2202
General	
Capacity	2200VA/1100W
Input	
Voltage	220V
Voltage range	172-276VAC
Frequency	50/60Hz (autosensing)
Joules	320J
Max spike current	4500A
AC pug style	NEMA 5-15P
Output	
Outlet type	8 (NEMA 5-15R)
Voltage range	207-252VAC
Frequency	50/60Hz
Delay timer	2 sec - 10 sec - 30 sec
Regulation steps (3)	2 boost / 1 buck
Overload protection	Thermofuse
Voltage regulation	
Voltage regulation	220V
Boost I	208VAC
Boost II	188VAC
Buck	232VAC
Data protection	
Phone/modem/fax protection	RJ-11
Joules	30J
Visual indicators	
LEDs	3
Power on	Green
Boost	Green
Buck	Green
Overheart/cut-off	Red
Environment	
Operating temperature	32-104°F
Storage temperature	5-133°F
Relative humidity	0-95% non condensing
Audible noise	<40dB at 1m
Physical appearance	
Switch	Lighted
Housing	Flame retardant plastic
Color	Black
Color length	3.3ft
Dimensiones (LxAnxal)	9.8x3.7x3.1in
Weight	4.9lb
Additional information	
Warranty	2 years
